HolyName 
Great medicine. Soul purpose.

CELEBRATING
100 Years

The Alfiero & Lucia Palestro Foundation Multiple Sclerosis Center

As the Holy Name health system enters its second century and the MS Center begins its 41st year, we are more grateful than ever for the loyal participation of our donors. Your support is essential to our ability to deliver the very special brand of exceptional, personalized MS care available only at Holy Name.

The Center's multidisciplinary team, led by Dr. Mary Ann Picone, delivers precision diagnostics, advanced therapies at the only MS-dedicated infusion center in the area, clinical trials, physical rehabilitation and psychosocial support to nearly 2,000 patients throughout the tri-state region and beyond. Furthermore, through their active participation in research studies, published work and presentations at scientific conferences, our MS experts help to advance the knowledge base that ultimately improves care for *all* people living with multiple sclerosis.
